

1 - Parking Lot

2 - Small parking area

3 - FFB

□ = entrance

2- After the turn onto Evans Terminal (the FoodBank is straight ahead at the bottom on the road), make a left into the first "driveway", that is between the first and second building on the left. Then continue in (it's somewhat bumpy) until you reach a silver chain link fence on the right hand side. Enter that lot and park on the left hand side of the lot. Walk back out to the main drive and down the street to the warehouse. It is a very short walk.

2- Another option: After the turn onto Evans Terminal, there is a parking area on the left with loading docks behind the parking area. You may also park your car there.
